(FORMERLY OCCUPIED BY DR. DeCAMP.)

Xenia.

The original owner of Xenia was John Paul, who donated for the public buildings the ground bounded by Main, Market, Detroit and Green streets. The first cabin was erected in April, 1804, by John Marshall. The first good hewed log house was erected for the Rev. James Fowler, Methodist, from Petersburg, Virginia. David A. Sanders built the first frame house. The first supreme court was held on the 15th day of November, 1804 by the Associate Judges William Maxwell, Benjamin Whiteman, and James Barrett. William A. Beatty was granted license to keep tavern in Xenia for one year on payment of eight dollars. This tavern was a double hewd log house, two stories high. It stood on the south-west side of Main street, opposite the public square. The court was held in the west room, up stairs, of this building, during the years of 1804-5. In 1804 the first jail was built by Amos Darough; it was constructed of hewed logs and stood on the ground now occupied by the court house; it was burned the following year and in 1806 a new one was erected by Wm. A. Beatty. It stood on the site of the present market house; it was burned during the war of 1812. The building of the first court house was let o Wm. Kendall, on the 8th of April, 1806, and an allowance of six dollars was made for clearing the timber from the public square. The court house was built of brick, forty feet square, and twenty-eight feet high, with a cupola in the center of the roof ten feet in diameter and fifteen feet high. It was finished on the 14th day of August, 1809. On the sixth day of April, 1806, a license was granted to James Gowdy, for retailing merchandise, on his complying with the law. Mr. Gowdy was the first merchant in the place, and his goods were opened in a log house with a mud and stick chimney.

Xenia has, for a city of its size, an unusual number of

handsome and costly private residences and elegant and substantial business houses. It has also unusual residential and educational advantages, and the good turnpikes which radiate in all directions, make its markets accessible to the residents in all parts of the county. The Ohio Soldiers and Sailors' Orphans' Home is located about one mile south of the city. Xenia has a population of about 10,000.

Jamestown.

This flourishing village is the center of trade for Silver Creek township, as well as adjoining townships in this county and the counties of Clinton, Fayette and Madison. It was named after James Browder, an early pioneer. The original proprietors of the town site were Thomas Browder and Martin Mendenhall. The town has not long since had a dirastrous fire which destroyed some of the finest business houses. The citizens are energetic and enterprising, however, and new and improved buildings will soon take the place of those destroyed. The county fair grounds are located near the town, where is held each season one of the finest fairs of the State. The population is about 1,300.

Franklin.

This flourishing town has a population of about 2,500. In 1793 Gen. Wm. C. Schenck emigrated from Monmouth county, New Jersey, to Marietta, Ohio. After residing there some time he and Daniel C. Cooper became proprietors of a large portion of What is known as the Symes' purchase, and, in 1878, they came to this locality and laid out the town of Franklin. It was then regarded as the best location for a manufacturing city to be found in the west, as it is the centre of a fertile country, and has unequalled water power. At an early day, before the Great Miami River was interrupted by mill dams, vessels floated the surplus products of the valley to New Orleans during a large part of the year, and this was one of the best shipping points on the river. The lands in this vicinity were formerly granted to John Cleves Symes, Jonathan Dayton and Daniel Marsh, the patent bearing date October 15, 1878, and signed by George Washington, president, and embraced 311,682 acres between the Miamas from the Ohio River north to a line bounding that amount of land.

BUSINESS NOTICES.

E. B. THIRKIELD & SONS

Occupy that elegant buisness block on the corner of Main and Fourth streets; this building is a three story brick, and on the ground floor are two store rooms 60 feet deep and having a frontage of about twenty-five feet each. The corner room is devoted to dry goods and notion department, and the other contains the office, and their large stock of ready made clothing, boots, shoes, &c. The clothing sold by this firm is manufactured on the third story, which is conviently fitted up for that purpose. On the second floor may be found a full stock of carpets, wall paper, &c. This is one of the largest houses in this line in the county, and thus trade extends for many miles in all directions.

WM. V. BARKALOW

Is proprietor of the extensive marble works on River street near the bridge. He makes a specialty of granite monuments and is the only person in the county that cuts and manufactures this class of work, as an indication of the reputation of the products of this shop, we might mention that a large share of his trade comes from Cincinnati, and he has filled a number of large orders from that city. He gives constant employment to 6 or 8 hands. Those wishing anything in this line should send for designs &c.

JAMES C. BLOOD

Is located on the corner of Main and Second streets. He has a handsome drug store, which is well supplied with everything in that line. He also makes a specialty of books. He has a general assortment, including school and blank books. This is a leading branch of his business, in which he has a good trade. His card may be seen on another page.

THE VALLEY CHRONICLE

Is published by W. E. Findley, and is a good local paper, independent politically, and consequently circulating freely among all classes, thus making it a good medium for the advertiser. The office is supplied with job printing material of all kinds.

E. BRIDGE & CO.

Are the most extensive dealers in groceries in the town. Their stock will always be found fresh and well selected and suitable for both the country and town trade. Their card may be seen elsewhere.

J. C. GOVERNEY

Is proprietor of Governey's sample and billiard rooms, on Main street. This popular place of resort is well supplied with first-class billiard tables, and the bar will always be found stocked with the best wines, ales, beer, and such like refreshments. Read his card elsewhere.

COLEMAN HOUSE

Is on the Main street, between Fourth and Fifth streets. This is acknowledged to be the best and only first-class house in town. Mr. Coleman, the proprietor, is unremitting in his at-

tention to guests, and the traveling public will find good accommodations at satisfactory rates.

W. M. CUMMING

Has a well-fitted up sample and billiard room on Main between Fourth and Fifth streets. The billiard room is commodious and well lighted, and the bar is stocked with the best brands of liquors, cigars, etc. See his card.

PERRINE, FORGY & CO

Ars proprietors of the large paper mills, on the head of Main street. They do an extensive business in the manufacture of pure manila and flour sack paper.

THE FRANKLIN PAPER CO.

This is one of the largest manufacturing establishments of the county. They make book and news paper exclusively and the produtcs of these mills are shipped to all parts of the United States.

HIGHLAND COUNTY,

Highland County Historical.

The land in this part of Ohio was given by the State of Virginia to her officers and soldiers in the Revolutionary War as a reward for their gallant services. About 1795 the surveying of these lands was commenced in this county. This was the hunting ground of the Shawnee, Miami and Wyandot Indians, and they watched with vigilant and jealous eye the intrusive white man with his chain and compass With prophetic vision they penetrated the future and saw their cherished hunting grounds disappearing before the devastating hand of civilization, and often repelled the encroachments of the "pale face" with the tomahawk and scalping knife.

In July, 1797, Adams county was organized, and embraced in its boundaries most, if not all, of what is now Highland, and was the fourth county organized in the State. At that time there were but two white people residing within the present limits of this county. John Wilcoxan being the first settler, near Sinking Spring, in 1795.

In August, 1798, Ross county was organized and the territory now constituting Highland detached from Adams and included in Ross, and continued so until May, 1805, when Highland was formed from Ross, Adams and Clermont, and embraced within its boundaries about half of Fayette and two-thirds of Clinton.

The county was then divided into four townships: New Market, Brushcreek, Liberty and Fairfield.

Madison was then a part of Fairfield and the place of voting was Beverly Milner's, on Hardin's Creek.

New Market is the oldest town in the county, and was laid off in 1798, and was for a number of years the county seat. Here the first term of court was held May 16, 1805.

Court was usually held in a small room in a tavern only large

enough to accommodate the judges, members of the bar, jurors witnesses and parties, the spectators standing outside and lis tening through the cracks. The jury went out into the wood and sat on a log to deliberate on their verdict, and the sessio of the grand jury was usually held in a tree top.

This county occupies the dividing ridge between the Littl Miami and Scioto rivers, its highest lands being about seve hundred feet above low water mark of the Ohio River at Cin cinnati, and sloping from the centre, East, West and Soutl from one to three hundred feet. Its soil is rather heavy cla underlaid by limestone, except a little outcrop of sandston and slate along the south-east line. It abounds in never-failin springs, clear and permanent.

Hillsboro contains a population of about 4,000. It is we laid off; the streets are wide and for the most part lined wit handsome shade trees, which add not a little to the beauty an attractions of the town. Its business blocks and private resi dences will compare favorably, both in elegance of architectur and convenience, with those of any town of the size in th State. The new City Building is a handsome and substantia structure, aud a credit to the town.

Residentially Hillsboro possesses many advantages. It elevated situation renders it free from those miasmatic an malarial complaints which are found in many parts of th State. Its moral and social status is unexcelled, and th citizens afford a liberal support to five churches. The publi schools are maintained in an excellent condition under the car of an efficient superintendent. The public library in Cit Hall is well supplied with books, periodicals and the literatur of the day.

Greenfield and Vicinity Historical.

From "Centennial Historical Sketches" by W. H. Irwin.

In 1799 the commissioners of Ross county ordered the College Township Road opened. This is the old road leading from Athens through Chillicothe, Greenfield, Leesburg, and on to Oxford.

The men appointed to this work were Duncan McArthur, surveyor, William Rodgers, James Murray, viewers, Thomas McDonald and Michael Thomas, chain carriers. It was while making this survey that McArthur conceived the idea of laying out a town here, which idea he carried into effect in that, or the following year.

The first person that settled in this newly laid out town, was Job Wright, who built the first cabin on the lot where now stands the Harper House. Job's ambition did not run in the way of worldly honors or profits. The creek and the forest were his home. By trade he was a hair-sieve maker, which he followed when it was not suitable for fishing or hunting; but he never allowed business to interfere with pleasure. Wire sieves were then unknown and the hair sieve was indispensible in separating the bran from the pounded corn meal. About a hundred yards above the bridge was his favorite place for angling. From this erratic, red haired, long whiskered, doubled thumbed individual, this place was named "Job's Hole," which name it still bears, although the origin of the name to most persons is forgotten

Civilization soon crowded Job out of town and further west; the last heard of him was in 1831, living on a small island in Diamond Lake, Cass county, Michigan.

Early in the spring of 1800, John Coffey, Lewis Lutteral, Samuel Schooley, Joseph Palmer, James Curry, James Milligan and William Bell, moved into Greenfield and commenced

building houses and making other necessary improvements, with a view to a permanent residence.

Bell died the next spring and was the first person buried in the place except a small son of John Coffey. His sons, Joseph and charles learned the blacksmith trade, Josiah the hatter's and established the first hatter's shop in the place. He afterwards engaged in the mercantile business, in which he continued until the time of his death about twenty five years ago.

Joseph Bell started the first blacksmith shop, close to where Dr. Newcomer now resides. Charles at first worked with him but he afterwards opened a shop for himself near the grocery house of T. N. Sellers and continued that business until 1827, when he sold out and engaged in the mercantile business, and continued to sell goods until near the close of his life. When John Coffey and others came here to settle, the Indians had their camp along both sides of the creek in the vicinity of the town and their intercourse with the white settlers was of a most friendly character. John Coffey was the first tavern keeper and the first Justice of the Peace. He built a log house on the cor. of Main and Second streets, the house was of hewed logs two stories high, twenty-two feet wide and thirty deep. Mayor James Curry built one of the first cabins near the spring, below J. C. Roachs residence. He had been an officer in the revolutionary war and helped to fight the bloody battle of Point Pleasant. He served as Representative for several terms in the State Legislature and was a very intelligent and accomplished gentleman. In this cabin, in 1804, the talented Otway Curry, poet and editor, was born.

The first school, of which we have any knowledge, was kept in a little log house outside the town plat, by Judge Mooney, about the year 1803. In 1810, a school house was built on out-lot No. 16, near T. M. Boyd's. It was built of round poles or logs, sixteen feet square, and covered with clapboards. A place was cut out for the door, and a log taken out on each side for the windows. One half had a puncheon floor, and the other half, next to the fire place, which occupied the whole of one end, was earth. Broad rails with legs in them constituted the benches. Mr. T. M. Boyd and William Collier

went to school here in 1814, but along in January it got so cold that the school froze out. In 1815 a good log school house was built in the grave yard; this was used until 1837 when two frame school houses were built, and the town was divided by Main street into two districts.

It may be interesting to some of the young people who now carry arms fu l of books and other accoutrements, to know something of a school boy's outfit in early days. Shirt and pants of tow linen in summer, in winter, linsey; wool hat or coon-skin cap, bare feet from April to December; heavy cow-skin shoes during the winter; frequently knees and elbows out; a small blue-backed Dillsworth spelling book, Pike's arithmetic, a piece of slate, a few sheets of unruled, coarse white paper, a little red potters' ware ink-stand, filled with ink made from maple bark, and a goose quill,—to be made into a pen by the master.

In 1845 the stone academy was erected, and for a number of years was a very successful institution. It finally failed to pay expenses, when a union school was organized and the building bought for that purpose; and if there is any one thing about which we have any better right to be proud than another, it is our Union School.

One of the great inconveniences suffered by the early settlers was the want of flouring mills. They had often to go from thirty to fifty miles, taking a whole week to make the trip; and if kept longer they dare not travel on Sunday or they would have the session and constable both after them. John Kingery, in 1802, built a grist mill at the present site of the "Greenfield Mill." It was a one-story log building, thirty feet square. At first he ground only corn, but he soon put in a hand bolt, and made passable flour. The mill stones were made from the native boulders and are still on the premises. In 1830 Kingery sold out to Samuel Smith, and Samuel Yohn did the milling until Daniel Leib purchased it, who afterwards began the erection of the present mill house, from which he fell and was killed, before he had completed it.

The township of Madison was laid off in 1809, and in 1810 the first election was held, at which forty-seven votes were polled. Not one of those electors is now living.

The early merchants of the place went annually on horseback to Philadelphia to purchase their stock of goods. It took from six to seven weeks to make the trip. The goods had to be wagoned to the Ohio river; thence boated down to Ripley, and from there wagoned to Greenfield.

Laboring as the people did under so many disadvantages for want of the improved method of transportation, it is not to be wondered at that they worked energetically to secure a railroad.

On the second day of May, 1851, Charles White, an old Revolutionary soldier, then in the ninetieth year of his age, threw the first dirt on the M. & C. R. R., near where the depot now stands.

Thousands of people assemble to witness the ceremonies and to rejoice over the prospects of soon being able to go east and west by rail.

On the first day of May, 1854, this hope began to be realized, that being the day upon which the first regular passenger train ran over the road.

In 1811, the first stone house was built in the place by Noble Crawford and was used as a hotel and called the "Traveler's Rest." The house is still standing and is the residence of Dr. Joseph McGarraugh. When it was built it was much the finest house in the place. Crawford kept the post-office here and was the first Postmaster, and this was the second office established in the county.

The mail was carried by a boy on horseback, making the trip once a week. The mail carrier was the required by law to blow a horn when approaching an office.

In 1808, George Sanderson moved here and purchased nearly all the in and out lots in the south and west portion of the town, fenced, plowed and cultivated the same in wheat and corn. He built him a house near where R. H. Miller resides, and dug the first well in the town on the lot of Henry DePoy. Mrs. Jane Edwards is one of his children, and is the oldest living person born in the town. Here she has resided for sixty-seven years and has never been out of town over a week at one time.

In 1814, David Bonner came here from Chillicothe. He

was a wool carder by trade, and so on after he came here built a portion of the old part of the Harper House, which he used for carding wool. He run the machinery by means of a tread wheel, on which he worked horses, oxen and sometimes cows. In 1822 he put up a large woolen and cotton factory on the lot owned by Samuel Murray. In 1834 he introduced steam to run the machinery. About the same time he put in mill stones to grind corn and a pair of burrs to make flour. In 1837, about mid day, his factory burned down.

The next year he built the stone buidling now owned by the Odd Fellows, and used it for a short time as a factory. When he sold this he retired from business, but he continued to reside in town until his death, in 1853, at an advanced age.

About the year 1814 a man by the name of Chinchester built the house now occupied by C. H. Crothers as a saloon, where he kept tavern.

There was a large two-story porch in front of the building, which was a great place of resort during the summer evenings. The porch in that day was a very fine piece of workmanship and was put up by William McMillen, Esq., who at that time was counted the best carpenter in the country.

Jerry Wilson succeeded him in 1823, and at the same time carried on the saddlery business, Stewart Brown and A. J. Freshnour being his apprentices. He sold out to Rice Vass about 1735; he sold to Major Musson, who continued to serve the public until his death

Vass then bought the property back and continued in the hotel business until his death, except a year or so when S. W. Smith had it leased.

In 1814 Captain James Collier moved on a farm just east of town. He was one of the persons that every true American delights to honor—a Revolutionary soldier. During the most of the time he was in the service he belonged to what was called the "Flying Camp;" a body of men used to make rapid movements on the enemy. Much of the time he was in the service he was with Gen. Washington; was with him in the memorable retreat through New Jersey, and the terrible suffering of Valley Forge. He took an active part in the battle of Long Island, helped to fight the battle of White Plains, assisted

in the capture of the Hessians at Trenton, and was in the battle of Brandywine.

For his gallent services he was presented by Gen. Lafayette with a fine sword which is still in possession of the family. In 1832 the government granted him a pension of forty dollars a month.

He cherished to the last days a hatred of Tories. Died January 30th, 1344.

Charles White, another Revolutionary soldier in early times settled on the farm now owned by William Taylor. His house was always the noted place of resort for itinerant preachers. He was the first Methodist class-leader in this part of the country, and filled that position for nearly fifty years. He participated in a number of battles and continued, through life, a devoted lover of his country and the cause of liberty.

In 1835, he moved into Greenfield where he lived until near the close of his life. His last days were spent with his son-in-law Hugh S Evans. He died at the advanced age of ninety-three years.

Hugh Smart came to Greenfield in 1824, and entered into the dry goods business with William Hibbin in the room now occupied by Hyer Bros. From 1835, to 1838, he served as one of the associate Judges of the county. In 1848 he was elected to the upper house of the State Legislature, and to him Salmon P. Chase was indebted for his nomination to the United States Senate In 1851, he built the three story brick building on the corner of Jefferson and Washington streets.

About 1815 a man by the name of Fullerton put up a still house east of Second and north of North streets. He run it for some time and sold out to Samuel Nichols; he to Rice Vass and he to Joseph Rodgers. Many years ago it burned down and it was generally supposed to have been fired by an incendiary.

As early as 1811 Samuel Holliday erected a small distillery near the present residence of R. S. Douglass. Whisky by the early settlers was considered indispensible and freely used, as it is at the present time.

In 1821, David Binkead kept hotel in what is now known as the South-ward property just east of Judge Norton's house.

He sold out to Jos. Lawhead and he to Samuel Wasson.

The first physician in the town was of the name of Garvin Johnson, who boarded with Noble Crawford, and afterwards married his daughter.

John C. Strain, moved to the farm where he now lives in 1808; he is in the ninety-third year of his age and so far as I can learn is the oldest settler in the township.

Prominent among the early pioneers were Thomas and Hamilton Rodgers, who came to this county in 1804, selected and surveyed their farms and the next year built their cabins and were the founders of the settlement about five miles below town.

Among the men of who came here in an early day of whom the present generation have a recollection was William Boyd. He took part in the Revolutionary War, and also the war of 1812. He took a great interest in the affairs of the Government and was very jealous of any enrcoachment upon the rights of the people. He died at the age of ninety-two, having been sick scarcely a day in his life until his last sickness. His son T. M. Boyd, when he came here in 1814, was eleven years old, and to him I am greatly indebted for many facts that make this sketch.

Greenfield was incorporated in 1841 and the next spring the following officers were elected. Hugh Smart, Mayor, Clayboarn Lea, John Boyd, Samuel Smith, Charles Robinson and John Eckman, Council; Dr. James Beard, Recorder and Jerry Wilson, Marshall.

Lynchburg Business Notices.

FREIBERG & WORKUM.

This firm is known throughout the State as proprietors of one of the most extensive distilleries in the country. The business was commenced here over 18 years ago and has always been the leading industry of the town, and, in fact, employs more men than enterprise of any kind in the county. When running full they employ over fifty hands, and can produce forty-five barrels of bourbon and rye whiskey per day. Mr. Frank Bates is the efficient superintendent.

HENDERSON & HOLMES

Have a good trade in groceries and provisions, glassware, notions, etc.; they also handle goods on commission. Their place of business is on Main street, opposite the depot, and they will be found prompt and reliable in attending to all business which may be entrusted to them. The postoffice occupies part of their store; Mr. J. W. Henderson is postmaster.

NEW YORK STORE.

This extensive establishment is kept by W. R. Gaddis & Son, who are successors to Freiberg & Workum. The store-room is one of the finest in the county, being one hundred and ten feet deep and twenty-five feet wide. It is well filled with general merchandise of all descriptions, suited to the town or country trade. Their advertisement appears in this work.

E. H. HILL, JR.,

On the corner of Main and Pearl streets, has a full and complete stock of pure drugs, patent medicines, chemicals, &c. Also, fancy and staple groceries. An adjoining store-room is devoted to hardware, in which may be found a full line of goods in this line, also pumps and agricultural implements. Those intending so purchase will do well to call here.

J. W. PEALE & BRO.

This firm is composed of J. W. and S. Peale. Their stock consists of general merchandise, such as groceries, glass, stone-ware, cigars, tobacco, etc, but their leading line is hardware, of which goods they have a full supply that will be sold to farmers and others as low as can be had in any house in the county. See their card elsewhere.

J. H. DENISTON,

On Main street, has a fine drug store, which is well supplied with everything in that line, such as medicines, chemicals, perfumery, paints, oils, varnishes, dye stuffs, etc. Customers will find here carefully selected goods and warranted as represented.

D. ELKLIS

Is proprietor of the grocery, confectionery and restaurant, on the corner of Pearl and Main streets. His card may be seen on another page.

FLOYD HOUSE.

This house is in charge of J. Ruse, and is well kept. It is the nearest house to the depot and is convenient to the business part of the town. Travelers will find good accommodations. See his card.

G J. MINZLER

Is proprietor of the Lynchburg Flour Mills. Here is manufactured the best quality of flour and corn meal. His principal trade is custom work, and the mills are well and favorably known throughout this part of the county, and have given general satisfaction to customers. Flour and feed always on hand at the lowest prices. See his card elsewhere.

PROFESSIONAL.

Prominently among the professional men of the county we notice John Torrie, who has practiced law for thirty-two years and whose abilities place him in the foremost rank of the profession. His office is on Main street. Among the medical profession we might mention Dr. Isaac Holmes, whose acknowledged skill brings him a large and lucrative practice. His office is on Main street near the depot. Dr. T. D. Achor's office is on Main street, and he is also kept busy attending to patients.

Dr. Robert Fulton is well known throughout this section, having been here over seventeen years, and having begun the practice of medicine forty-three years ago. Although now almost seventy years of age he is hearty and hale, enjoying excellent health and attending as promptly and skillfully to all calls as ever. The population of Lynchburg is about 800.

WIGGINS & McKILLOP'S

DIRECTORY

—OF—

CLINTON COUNTY,

FOR 1878.

1878.
Wiggins & McKillop, Printers, Wellsville, O.
Directory Office, Columbus, O.

Clinton County Historical.

Clinton county was organized in the year 1810. The territory now within the limits of the county was originally parts of Warren and Highland, being part of the land that was reserved to reward the soldiers of the Revolutionary war, and known as the military lands. The county was named after Governor Clinton, of New York, Vice-President of the United States. The county contains about four hundred square miles of land. The soil, in most parts, is a black loam, usually several feet deep, on a stratum of clay, and in some places of sand or gravel. It is very fertile and well adapted to the production of wheat, oats, corn, grass and all kinds of vegetables. A small proportion of the land in the south-western part of the county is hilly,—the remainder level or gently undulating. The land is generally in a high state of cultivation, and the farms well improved.

Stock raising is extensively pursued in this county, and many fine droves of cattle, sheep and hogs are annually shipped to the various markets.

The principal streams of the county are Anderson's and Todd's Fork, Cowan's Creek, Cæsar's Creek, and the east fork of the Little Miami, all of which flow in a south-westerly direction, and are tributary to the Little Miami River.

Wilmington.

This is the seat of justice for Clinton county. The land upon which the town is located was donated to the county by David Faulkner and Joseph Doan. It was laid out by James McMannis in 1810 ; he had been appointed " Director " by the Court of Common Pleas, and his duties were to obtain titles to the land selected for the county seat and lay the same off in lots. The town had been named Clinton, then changed to Armenia, and again changed to Mt. Pleasant; and finally to Wilmington, from Wilmington, North Carolina. Wilmington of to-day has about 4,000 inhabitants, and is the centre of a large trade. It contains a number of fine business blocks and elegant private residences. The new town hall is a model of architecture and mechanical skill, and well suited to the purposes for which it was intended.

New Vienna.

This thriving town was laid out in 1827, by Thomas Hussey. It is located in the south-eastern part of Green township, on the Marietta & Cincinnati R. R. Its favorable location makes it the center of trade for a large section of country and the merchants are generally enterprising and prospersus. There are five churches in the town. The new school building, almost completed, is a magnificent structure for a town of this size and a credit to the community. Population, about 1,200.

BUSINESS NOTICES.

A. B. BEARD.

The store of this gentleman is on the Main street. The hardware department is well supplied with everything in that line, and those wishing to buy will find it to their advantage to call and see the variety of goods here in stock. His stock of groceries and provisions will be found fresh, and sold as low as any other house in the trade. Mr. Beard has been in the mercantile business since 1855. See his card elsewhere.

THE WEEKLY REGISTER.

This is a large, well printed and ably conducted paper, and is a credit to the town. The job printing office is well supplied with facilities for doing everything in that line promptly and with taste. It is one of the largest in this section of the State.

UNDERWOOD & WRIGHT

Have been here over three years engaged in selling groceries, confectioneries, etc. The restaurant connected with this house is well patronized, as they keep refreshments of all kinds, such as ice cream, oysters in season, etc. Their card may be seen elsewhere.

GRAVATT & HAGUE,

Whose card may be seen on another page, are located on Main street. Here may be found a large stock of drugs, medicines, and in fact everything usually found in a first-class drug store. Those wishing anything in this line will do well to call here.

JOSEPH K. PARKER

Is engaged in the livery business on Church street, opposite the Methodist church. These stables were formerly known as the Higgins stables. His turnouts, either single or double, are equal to any in the county, and he takes the best care of horses and vehicles, and guarantees satisfaction in all cases. He also has special wagons for commercial travelers. See his card elsewhere.

R. M. WILLIAMS

Has been engaged in the drug business here for over five years. He has a lrrge and complete stock of drugs, paints, oils, perfumery, medicines, &c. He is also prepared to fill prescriptions promptly, and those desiring pure drugs compounded by an expert in the business should not fail to call here. Mr. Williams has by fair and honorable dealing established a large trade in the town and surrounding country.

J. C. SANTEE

Is the leading clothier and gents' furnisher of the town. He makes a specialty of fine clothing, and those in need of anything in this line cannot do better than call here and see the inducements offered. He has been in business here nine years.

T. P. PEALE

Is prominently identified with the business of the town. The building which he occupies is the finest mercantile building in town. It was built in 1876. This building is 93 feet long by 44 wide, containing two store rooms on the fiast floor, 90 feet by 21 clear. It also contains Peale's Hall, which contains stage, scenery and is commodious and well arranged. The building is lighted by gas which is manufactured on the premises.
